About us

Blacks Fasteners began trading in New Zealand in 1989 from premises in Wordsworth Street, Sydenham, Christchurch. The aim was to supply a comprehensive range of top quality fasteners at competitive prices to customers throughout New Zealand and beyond.

With our team of trained professionals offering unmatched customer service, we have grown to six easily accessible locations around New Zealand - Nelson, Blenheim, Invercargill, Dunedin and two stores in Christchurch.

The huge range of fasteners in our inventory is fully computerised, enabling on-the-spot answers to enquiries, fast quotation turnaround and efficient sales and dispatch to meet our customers requirements.

With unmatched knowledge, experience and professionalism, combined with superior products and service, Blacks Fasteners is now at the forefront of the fastener industry.

Our Company values

• We only employ, use as suppliers or deal with customers who are 100% committed to an honest and trustworthy relationship.

• Our team is our biggest asset. We work as a team to play by our customers rules.

• We try to only have good news. When we do have bad news, we say it first.

• We are committed towards what we do. We push ourselves to grow as people and encourage others to grow with us.
A brief history of our Company

1989  Began trading in Wordsworth Street, Sydenham, Christchurch.

All structural bolts, nuts and washers are labelled with

Purchase order number(s)  Heat process numbers
All Structural bolts, nuts and washers are third party tested
Storage solutions

Indicator® Bins
Effective inventory control at a glance! Akro-Mils’ two-toned Indicator® Bins feature an orange reserve section to prevent stock-outs and assembly line interruptions. Never run out of inventory! The Indicator Bin is a simple visual recognition system which shows at a glance when supplies need to be re-stocked. When the bin is emptied to a determined reserve level, simply rotate it and order more stock, replenish then rotate back. The Indicator Bin is an innovative, low-cost alternative to high-end inventory control systems.

Stacker Bins
Semi open front small parts storage bins moulded from virgin grade polypropylene, they are extremely strong and durable, have no sharp corners, won’t rust and are very easy to clean. The four bright colours simplify warehouse coding, sorting and identification, while full-size bins can be easily be sub-divided using drop-in dividers. Wide stacking shoulders allow the large bins to be stacked up to 10 high, even under heavy weights.

Inventory Management
We also do an Inventory Management system using an Argox PT-18 Portable Scanner. All you do is scan the barcode on the bin or bins, enter and email it through. Blacks Fasteners will also supply bin labels specifically designed to suit your requirements. Talk to your Sales Representative for more details.

Blacks Cardboard Bins
An affordable, sturdy and smart solution for your workshop shelving. Available in two sizes.

Vibra-TITE is quickly becoming one of the most highly respected names in the adhesive industry. And, as a result of ND’s low overhead expenses and in-house capabilities, Vibra-TITE products offer the same high quality and superior performance of other name brand products at a cost saving of up to 40%.
It's not just our customers we take care of

Blumine Island Conservation Project
As part of Blacks Fasteners’ commitment to New Zealand’s natural heritage, we are proud to support a major conservation project currently being undertaken in the Marlborough Sounds. In conjunction with the Department of Conservation, Blacks Fasteners are supporting the relocation of the endangered Yellowhead (Mohua) New Zealand native bird species onto the unique predator-free sanctuary of Blumine Island. This includes the part funding and support of a 2.6 km track which passes through bush teeming with native birdlife.

Kaipupu Point
A sanctuary for endangered native birds and other flora and fauna, is taking shape on Picton’s doorstep. The creation of a sanctuary, Kaipupu Point Sounds Wildlife Sanctuary, was initiated by the Kaipupu Point Mainland Island Society Incorporated in 2005. The Kaipupu Sanctuary is located on Kaipupu Point, between Picton Harbour and Shakespeare Bay, in the Marlborough Sounds.
**Sponsorship**

Blacks Fasteners have a proud tradition as a socially responsible business and try where possible and practical to support our local communities as well as the world we live in.

We are currently involved in various sponsorships built around Community, Sporting and Conservation causes and activities.
Store locations
Blacks Fasteners operate from six convenient locations around the South Island of New Zealand giving fast and efficient service - wherever you need it. Please feel free to contact the office closest to you in your sales region.
