C120 H A0600

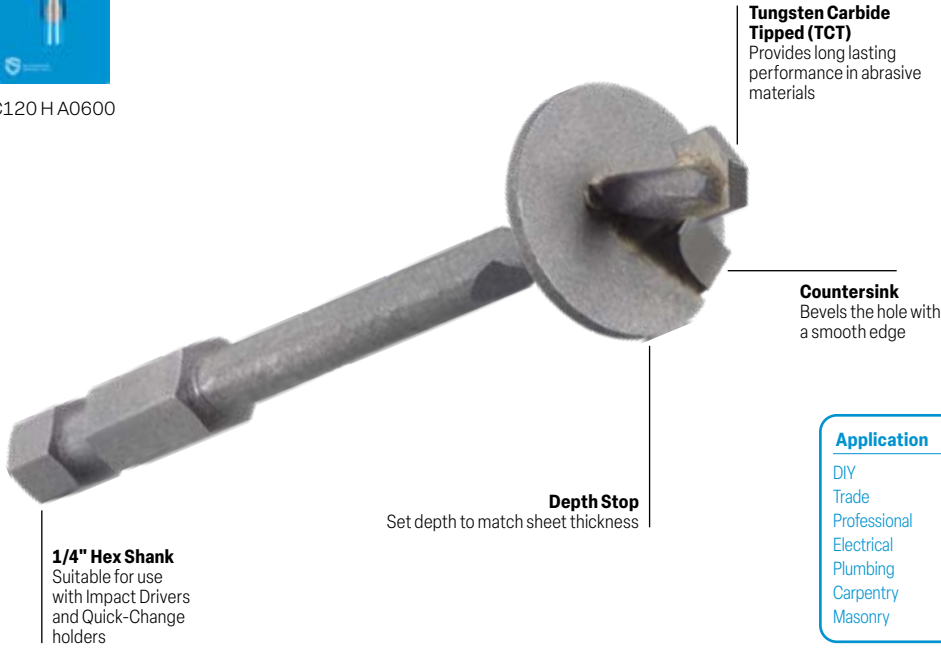

DRILL COUNTERSINK

Engineered to drill holes and countersink for screws in one easy step.
Optimised for use with thin fibre cement sheeting such as blue board.

Two stop depths are available:

9mm - For blue board & other thin fibre cement sheets

18mm - For compressed fibre cement sheets

Tungsten Carbide Tipped (TCT)
Provides long lasting performance in abrasive materials

Countersink
Bevels the hole with a smooth edge

Depth Stop
Set depth to match sheet thickness

1/4" Hex Shank
Suitable for use with Impact Drivers and Quick-Change holders

Application

- DIY
- Trade
- Professional
- Electrical
- Plumbing
- Carpentry
- Masonry
