PVC PRIMER Range

PROUDLY NEW ZEALAND MADE

Trusted for over 25 years, Bostik's PVC Primers are used to prepare the jointing surface of PVC pipes prior to solvent cement application. Approved to AS/NZS4020 for Drinking Water.

- New Zealand Made
- Use prior to application of Bostik PVC Pipe Cement to degrease surface and remove glossy finish of PVC pipes
- Conforms to requirements specified in AS/NZS3879 when used with Bostik PVC cement
- Suitable for use in contact with drinking water – meets AS/NZS 4020
- Good application viscosity; easily applied with minimal dripping
