

NEW

Purlin Nail

Our new Blue Head Purlin Nail was designed to help smart builders like you get the roof on faster so you can spend less time working at height, and allows for fast and easy inspection.

Product Description

Our 80 x 3.15mm Confast Purlin Nails are an alternative solution to NZBC Clause B1 for fixing purlins and battens to trusses.

Product Advantages

- Time saving installation with a single tool
- Blue head for easy inspection

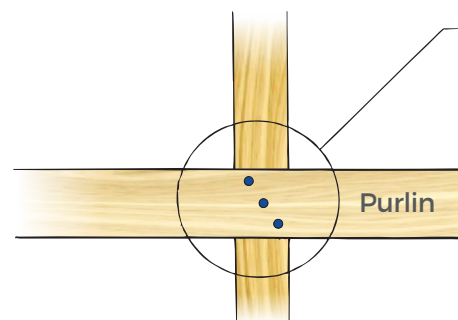

Applications

- Fixing timber purlins and battens to roof trusses
- Suitable for residential and light commercial timber framing
- Designed for compliance with NZS 3604:2011

Product Compliance

- Substitute for Type T purlin fixing as specified in NZS3604:2011, Table 2.2, which is cited as a means of compliance with the New Zealand Building Code (NZBC) Clause B1 Structure as an acceptable solution
- The 3-nail group fixing per connection achieves equivalent joint capacity (~2.4kN) and constitutes as an alternative solution to NZBC Clause B1 Structure
- Certified by qualified and registered engineers.
